It is the district's responsibility to ensure that every effort is made to conserve energy while exercising sound financial management and safety. The implementation of this policy is the joint responsibility of the Board, administrators, teachers, students, support personnel and community, and its success is based on cooperation at all levels.

The Superintendent is authorized to establish a committee to study various ways and methods in which the school district can conserve energy and lessen its energy usage. The Superintendent is urged to include administrators, staff and students on this committee.

Additionally, the Superintendent may establish administrative rules and regulations necessary to implement this policy.

The principal and Director of Buildings and Ancillary Services will be accountable for energy management on his/her building with annual energy audits being conducted and conservation programs being updated. Use of the various energy systems of each building will be the joint responsibility of the principal and building custodian.
